

The Invisible Internet Project

The Invisible Internet is a privacy by design, people-powered network. It is a truly free and anonymizing Internet alternative.

[Get Started](#)

Privacy by Design: Foundational Privacy Network Design and Architecture

The internet is too important to billions of people for it to be at the mercy of a few powerful companies.

We are developing the technology to disrupt centralized online services and enable institutional innovation.

[View Tech Docs](#)

Groundbreaking privacy technology. I2P offers:

- Privacy & decentralization by design
- Protocols that protect
- A network that is community run
- Endless opportunities
- An open source project
- A truly free Internet alternative
